

VALUE PROPOSITION

Human Resources and Corporate reorganization

The Human Resources are a critical asset in the success of a Company; moreover, they play a key role for the success of any reorganization and restructuring process. **Sigma Experience** can support its clients in the optimization of the procedures, working in connection with the top management in all the steps of the process, from the feasibility analysis to the implementation.

We can also provide some experienced resources which can work in close connection with the top management to keep under control the success of the operation. The services offered by **Sigma Experience** include management training and coaching in order to develop the internal resources of the company.

In many cases, our approach is to operate in connection with the family/owners of the company to facilitate the change management between the old and the new generations of owners.
